Getting to know the students can improve your college experience and help you quickly overcome the challenge of adjusting to a new environment. You are most welcome to join the International Students' Union. The Union is a self-governing student organization that attends to the welfare of all international students aboard. Membership has been on the rise steadily these years with the recruits from Taiwan, Mainland China, South Korea, Hong Kong & Macau, Indonesia, Malaysia, Vietnam, Thailand, Nepal, etc. The student union embraces cultural differences, promotes individuality, and facilitates student bonding. To achieve these goals, it hosts a variety of socializing activities open to international students throughout the year, such as social gatherings, regular meetings, and the "International Month" in particular. The International Month is celebrated in a full month of events to recognize the university's global connection across campus. The series of cross-cultural activities such as Dance&Sing Performances and Food Festival for charities provide the opportunity to demonstrate the members' talents, to work together, and to introduce their respective cultures to local students, faculty, and staffers. The Union works closely with the Office of Humanities and also the OICSE to help incoming international students get oriented to life on campus, as well as other issues that may arise during their studies. You may join us on [Facebook at International Student of TCUST](#).

2. Introduction

The Tzu Chi University of Science and Technology (hereafter “the University”) is located in Hualien County in the eastern region of Taiwan. Hualien is bordered by the Central Mountain Range to the west and the Pacific Ocean (the Philippine Sea) to the east, with its population largely residing in the Huatung Valley and on the coastal belt along the East Coast Mountain Range. It is famous for its natural attractions, including Taroko National Park. The University is located at the foot of the Central Mountain Range and neighbors the Shapodang River, encompassing an area of 186,000 square meters. The campus landscape is broadly majestic and peaceful, garnished with elegant architecture and cultural atmosphere. The University primarily comprises the Administration Building, Education Building, Faculty Research Building and the Library Building.

The University was founded by Master Cheng Yen in 1989, with the aim of cultivating in professionals compassion towards society, respect for life, philanthropic qualities, and the values of “great love” of Tzu Chi. The fulltime programs comprise the Department of Nursing, which offers two-year and four-year nursing programs, Department of Medical Imaging and Radiological Sciences, Department of Health Administration, Department of Marketing and Distribution Management, and Department of Information Technology and Management. The Nursing Department also offers two-year and continuing education programs to employed individuals, as well as junior college courses.

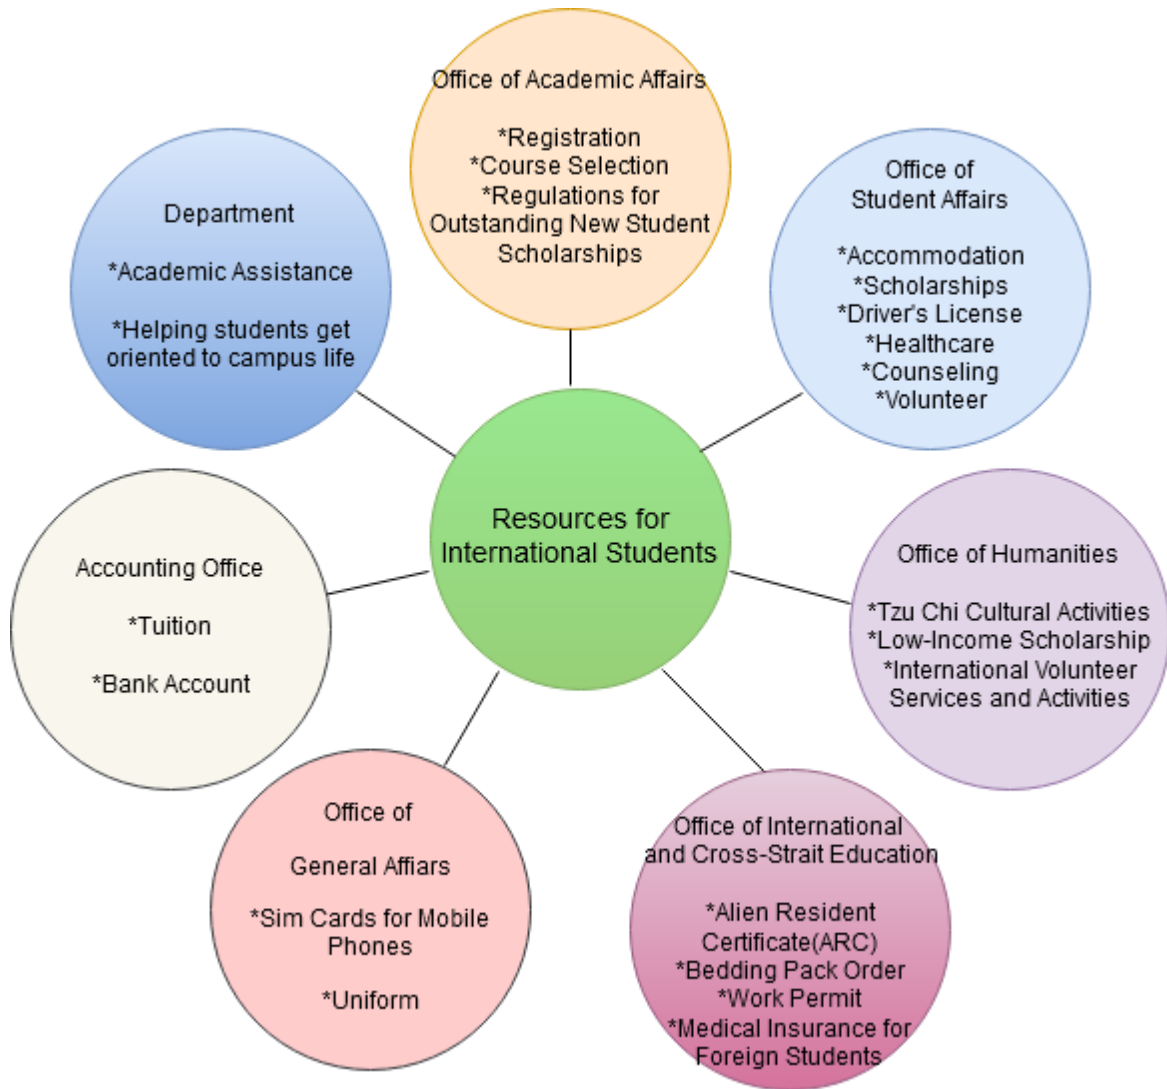

The University has constantly promoted environmental protection strategies by enforcing waste reduction, classification and recycling, urging the use of eco-friendly tableware on-campus, and prohibiting the provision of paperware. The University advocates the “reduction of carbon footprint by going vegetarian” and only offers vegetarian meals in the cafeteria. It also hosts annual events for charity sales or recycling of second-hand books or bicycles.

The [Office](#) hours are from Mondays to Fridays, between 8:00–12:00 and 13:20–17:20.

The Act stipulates that students shall not dye their hair to ensure student health and prevent harm that may derive from hair-dyeing. However, these regulations do not apply to perming, straightening, or hairstyles so as to provide students with a degree of freedom and allow them to exercise their aesthetic values.
